Complaint, A.U. Petition for a
Protective order and Restraining order

[The only reason Plaintiff had a mental
breakdown is whole in the bag
he reported the CIA's electronic harassment
and some idiot doctor during a five minute
video conference slapped it on him his name
was Ann Cocco. Later a Dr. Metts later
adopted her report but said out side of
the area of electronic harassment Banks
was fine. 3 other doctors 2 at CCA
and one at Renal Center found
nothing wrong with Plaintiff]

In the SDNY the following occurred.

Plaintiff Frederick Banks ("Banks") an American Indian represents for his Complaint as
follows: Banks is an American Indian and member of the Sioux tribe (see [bog.gov](http://www.bog.gov) at #05711068 inmate locator
"Frederick H. Banks") he is also a tribal official. Cont, Hubon, Conley, Fisher, and Conley failed to protect
Banks from the following allegations and instead punished him with a prison term. Viscuso failed to reply to a FOIA request & sent via
email.
During 2012 while on a plane in route from Kansas to FCC Forrest City, Arkansas and
[in addition the US Department of State failed to respond/reply, it held on Banks to an FOIA/PA Act request] NY C.
a federal prison Obama, Brennan and the Directorate of the CIA entered Banks into a CIA
behavioral modification program and authorize this entry because of federal lawsuits Banks filed
which named the president and over 800 lawsuits he filed against the federal government. The entry
resulted in the CIA out of the Science & Technology center and Defendants electronically harassing
Plaintiff 24 hours a day 7 days a week using VAX (Voice to Skull) Technology. VAX is listed on nida.gov
as "Voice Coding" Also see "Voice to Skull" search wired.com "Court to Defendant Stop Blasting
that Mind Mind" in which this Court enjoined a Defendant from using electronic harassment to harass a
Plaintiff, see James Walcott v. Jeremiah Redford (In Redford this Court issued a restraining order against
the Defendant on a similar set of facts) Using VAX the CIA for over 50 years has used bio-electric sensors
that infiltrate a human organism's bio-electric impulses that the brain gives off to control the target, Banks,
like a puppet. As a result of these electromagnetic brain assaults Banks was rendered as a separated
reality violation when due to this harassment he had to resign from his restaurant job. The transmissions insult his
Western Religion, his race and his heritage along with his intelligence, cause severe trauma, headaches and sleep
deprivation. In June a nurse named Ashley Bantz examined Banks at a NECC where he is confined and found that
his eyes were red and his blood pressure was elevated due to lack of sleep. On another recent occasion Banks
blood pressure read 140 over 120! Like Walcott Banks had felt electric shock sensations, popping and
ringing in his ears and generated tones but also hearing winds due to the virtual reality like effects the
CIA employed. The Defendants also were able to record Banks' memories, communicate in real time and
see and hear and record everything Banks said and did. Banks believes that the only reason the Directorate
CIA told him it was them was to prevent more lawsuits an irresponsible parties. Plaintiff believes that the
CIA is responsible for all the electronic harassment in the US and abroad and is using the VAX technology to
influence world leaders and events. As in Walcott this Court should issue a restraining order and award damages
for invasion of privacy, negligence, violation of the First Amendment Free Exercise, Privacy and Free speech and
Fifth and Fourteenth Amendment due process and English Amendment Right in the amount of 100,000,000.00 along with
costs, interest and fees. Obama mentioned Banks on his blackberry, Holder & Chumbliss failed to protect and Obama authorized
costs of Africa

he is a plaintiff in the largest settlement in U.S. History. Cobell v. Salazar (D.C. Cir.) which settled against the USA for 3.4 Billion dollars. Developments in the mapping of the brain see National Geographic the science of the Brain and Kirillan photography allowed the Defendants to execute and implement their terror campaign of VAK assaults on the American public and abroad. They concentrate in typical CIA fashion on people that "can't fight back" prostitutes, prisoners, mentally ill and drug addicts. A very sick and twisted deviant game. A Jury Trial should be ordered and a Preliminary Restraining Order should issue immediately. Since Banks is an American Indian all state, regulations, statutes and the Constitution are construed in his favor. *Onyiah v. USA*, 247 F. Supp. 533 (D.C. Kan 1965). Wherefore, Judgment should be entered for Plaintiff and against defendant in the amount of 100,000,000 along with cost, interest and fees, a preliminary restraining order should issue and a permanent injunction, and a Jury trial should be ordered along with all other requested and warranted relief.

Respectfully Submitted,

Frederick Banks

Defendants technology also allowed them to project audio and video into Plaintiffs dreams. In one projected scene they put Plaintiff in a Collapsing building. When he awoke they stated "if you keep him on the USA that's what you're gonna get wiccan." The CIA harassers goal also was to try to get Plaintiff to act in anti social ways so that his friends and family would distance themselves from him. They did this so that people that knew him well and would believe him would think that he lost his mind and therefore would not believe him. In one of the many ways they did this they piped audio sound samples of one of plaintiffs nieces into his head stating that another niece had a "fire" at her house while she was traveling for work. They tried to convince plaintiff to inform his family that they were in danger because someone who possibly committed theft against plaintiff lived in the same neighborhood. The goal of all this disinformation and ridicule was to push Banks family and friends away from him so the CIA in typical fashion could further isolate him. An isolated person is much easier to manipulate and harass and as plaintiff previously stated the CIA harassed US citizens that "Could not fight back" prisoners, prostitutes, drug addicts and the mentally ill and the homeless. Obama not only authorized personally this criminal and civil conspiracy he monitored it in real time and joked about it with friends and family and other government officials over tea and at dinner parties. The joking soon stopped when plaintiff started suing however when the suits landed the electronic harassment increased and got much more intense and animated.] (Banks EMP detector that picks up the CIA transmissions went off 24 hours daily before he was returned to prison see Exhibit A.) All the judges heard to do was contact both the state department and the CIA to determine if Banks allegations had merit yet he failed and Page 2 of 2 continued to refuse to take that simple basic step.
